Dear traveller,

HEALTH COMES FIRST

The Peruvian Government has taken the following measures to fight COVID-19:

- As part of the economic reactivation, international flights of up to 8 hours will be resumed. Likewise, health and safety protocols have been approved for hotels, restaurants, train services, travel agencies, guides, hostels and for adventure tourism, among others.

- Foreign travellers are permitted to enter Peru without the need to comply with quarantine upon arrival only if they have a molecular test (PCR) that indicates that they do not have coronavirus. This test must be done a maximum of 72 hours before check-in.

- The reopening of land borders has been authorized, and the respective Regional government authorities must adopt pertinent biosecurity measures in coordination with the Ministry of Health.

- The use of a mask in public is mandatory throughout the country, and in order to maintain the decline of infections, the population is reminded of the importance of constant hand washing and maintaining social distance.

- The National State of Emergency will run until November 30, 2020, as well as the circulation of people from 04:00 to 23:00. Private vehicles cannot circulate on Sundays.

If you have any questions, please contact the Tourist Protection Network through the iPerú service:
